

Updated April 2014 A.D.

Haden Exports has buyers for a variety of different products and categories Buyers for particular countries such as Mexico, Canada, and the U.K., Latin America, and the Middle East. And finally buyers who could care less what the product is, as long as they can make a buck.

If you have surplus inventory Haden Exports has a variety of methods to connect buyers and sellers together.

UPDATED : Wanted to Buy List:

- 1.) Solar Panels – New or Used 1Megawatt or greater. UL approval not necessary. (including solar panels installed on a warehouse roof.) We have buyers who purchase based on tax and depreciation advantages. All offers must be located in the United States, Canada, Mexico, or the United Kingdom.
- 2.) Solar Panel Inverters and related materials.
- 3.) OS&D Freight and Abandoned Freight. Why let this gather dust – sell it now.
- 4.) “Destroy In Place” Returns. Primarily for export to Mexico. Much of this material is not cost effective to deal with – but at least maybe try to re-coup a few dollars.
- 5.) Baby Cribs – For export to Mexico only. Recalls are acceptable under certain conditions.
- 6.) Any Bulk Fabric or Textiles
- 7.) Any bulk retail type products or products without UPC code that can be repackaged at the destination country. We have buyers for these types of goods in Mexico, South America and Eastern Europe.
- 8.) Cosmetic Bags and Caps and Closures or other packaging materials.
- 9.) Off Spec Chemicals – For export to India and Pakistan
- 10.) Cell phone return bid lists (just bid lists only)
- 11.) Bulk batteries – not retail packaged, and especially cellophane wrapped batteries.
- 12.) Microwave Oven Returns – Large on going quantities for Mexico to be refurbished.
- 13.) Wedding Gowns or other bridal related clothing.
- 14.) Toner or Ink Jet Cartridges – Used or new excess in large quantities.
- 15.) Any other product that needs to leave the U.S. supply chain. We operate at 2 levels – high profile sales on our web site, and “low profile” under the radar.
